PETRO PFAMS

OUR STORY

Empowering Global Commerce: PETRO PFAMS - A Decade of Premier Marketing and Export Solutions

Established in the year 2010, PETRO PFAMS is vested with the responsibility of overseeing the marketing and exportation of all products manufactured or supplied by the company. Acting as the sole entity accountable for the promotion and global distribution of PETRO PFAMS's comprehensive range of products, the company ensures a seamless and strategic approach to international trade. With a decade of experience, PETRO PFAMS has positioned itself as a reliable force in effectively marketing and exporting the diverse array of products under its purview.

About Us

PETRO PFAMS specializes in the supply and trade of diverse Petroleum Products, Petrochemicals, and Polymers with a distinguished track record spanning over a decade in the realm of international trade, the company operates seamlessly across Europe, Asia, and Africa. PETRO PFAMS stands as a prominent player, engaging in the exportation of various commodities to European nations, Southeast Asian countries such as China, Malaysia, and India, CIS nations, Persian Gulf states, Arabian nations, and African territories. Benefiting from a decade-long operational history, PETRO PFAMS has established itself as a key player in the industry. The company offers an extensive array of high-quality products coupled with a delivery system that is not only responsible and reliable but also attuned to the dynamic pace of today's business landscape. PETRO PFAMS is committed to delivering simple yet effective solutions that precisely meet the exacting demands of clients worldwide.

FIELDS OF ACTIVITY

PETRO PFAMS specializes in the supply of a diverse range of products, including Petroleum, Petrochemical, Chemical, Polymer, and Fertilizer commodities. Our commitment is to deliver unparalleled services and top-quality products across every sector in which we operate. At PETRO PFAMS, we take pride in providing the best-in-class solutions, ensuring excellence in both service and product quality to meet the distinctive needs of our clients in every sector we engage with.

VISION & MISSION

Our aspiration is to be the preferred choice for customers globally, achieved through the delivery of unparalleled services, innovative ideas, and a commitment to continuous process improvement. Striving to emerge as one of the premier producers and suppliers on a global scale, we aim to lead the industry in providing Chemicals, Polymers, Petroleum Products, Petrochemicals, and Fertilizers. Our vision encompasses not only meeting but exceeding the expectations of our clientele, establishing ourselves as a forefront player in the international market.

Supplier Producer

Since the inception of PETRO PFAMS, our adaptability and receptiveness to change have been integral to our steadfast commitment to fulfilling our mission. We have consistently aimed to deliver the highest quality services and products across all sectors in which we operate. The enduring success and expansion of our business can be attributed to the unwavering consistency of our standards and policies, coupled with the collaborative efforts of our esteemed international partners.

Furthermore, our discerning approach in selecting and recruiting professional staff underscores our dedication to aligning with the highest international standards. This emphasis on precision and sensitivity has not only fortified our organizational framework but also contributed significantly to our ability to navigate and adhere to the best practices prevalent in the global business landscape.

PETROLEUM PRODUCTS

Petroleum products encompass a broad spectrum of materials derived from the processing of crude oil in oil refineries. Distinguished from petrochemicals, which typically consist of well-defined and often pure organic compounds, petroleum products are intricate mixtures that undergo various refining processes. The majority of crude oil is transformed into these products, spanning several classes of fuels.

The composition of crude oil, coupled with market demands, guides refineries in producing diverse shares of petroleum products. Within our repertoire, the range of high-quality Petroleum products offered by us includes:

► Bitumen

PETROCHEMICAL & CHEMICAL PRODUCTS

Our foremost products, Chemicals and Petrochemicals, stand as indispensable commodities with high global demand. These versatile substances find application across various industries, playing a pivotal role in sectors such as Cosmetics, Detergents, Automobiles, and Food. The breadth and quality of our Petrochemical and Chemical offerings are exemplified by the following products in our portfolio:

- Ethylene Dichloride (EDC)
- Butadiene

POLYMER PRODUCTS

Polymers, defined as extensive molecules resulting from the linkage of multiple monomers into long chains, derive their name from the Greek roots “poly,” signifying several, and “mer,” representing part. These versatile compounds play a crucial role in various industries, demonstrating their significance in applications such as Automobile, Construction, Packaging, Textile, Household Goods, Health and Pharmaceuticals, Electronics, Agriculture, Military, Sports Equipment, Transportation, and more.

Within our comprehensive range of Polymer products, we offer the following selections:

- ▶ LLDPE
- ▶ HDPE
- ▶ MDP
- ▶ E
- ▶ SBR
- ▶ PC
- ▶ PET-BG
- ▶ PET-TG
- ▶ POY
- ▶ Staple
- ▶ Liquid Epoxy Resin

FERTILIZER PRODUCTS

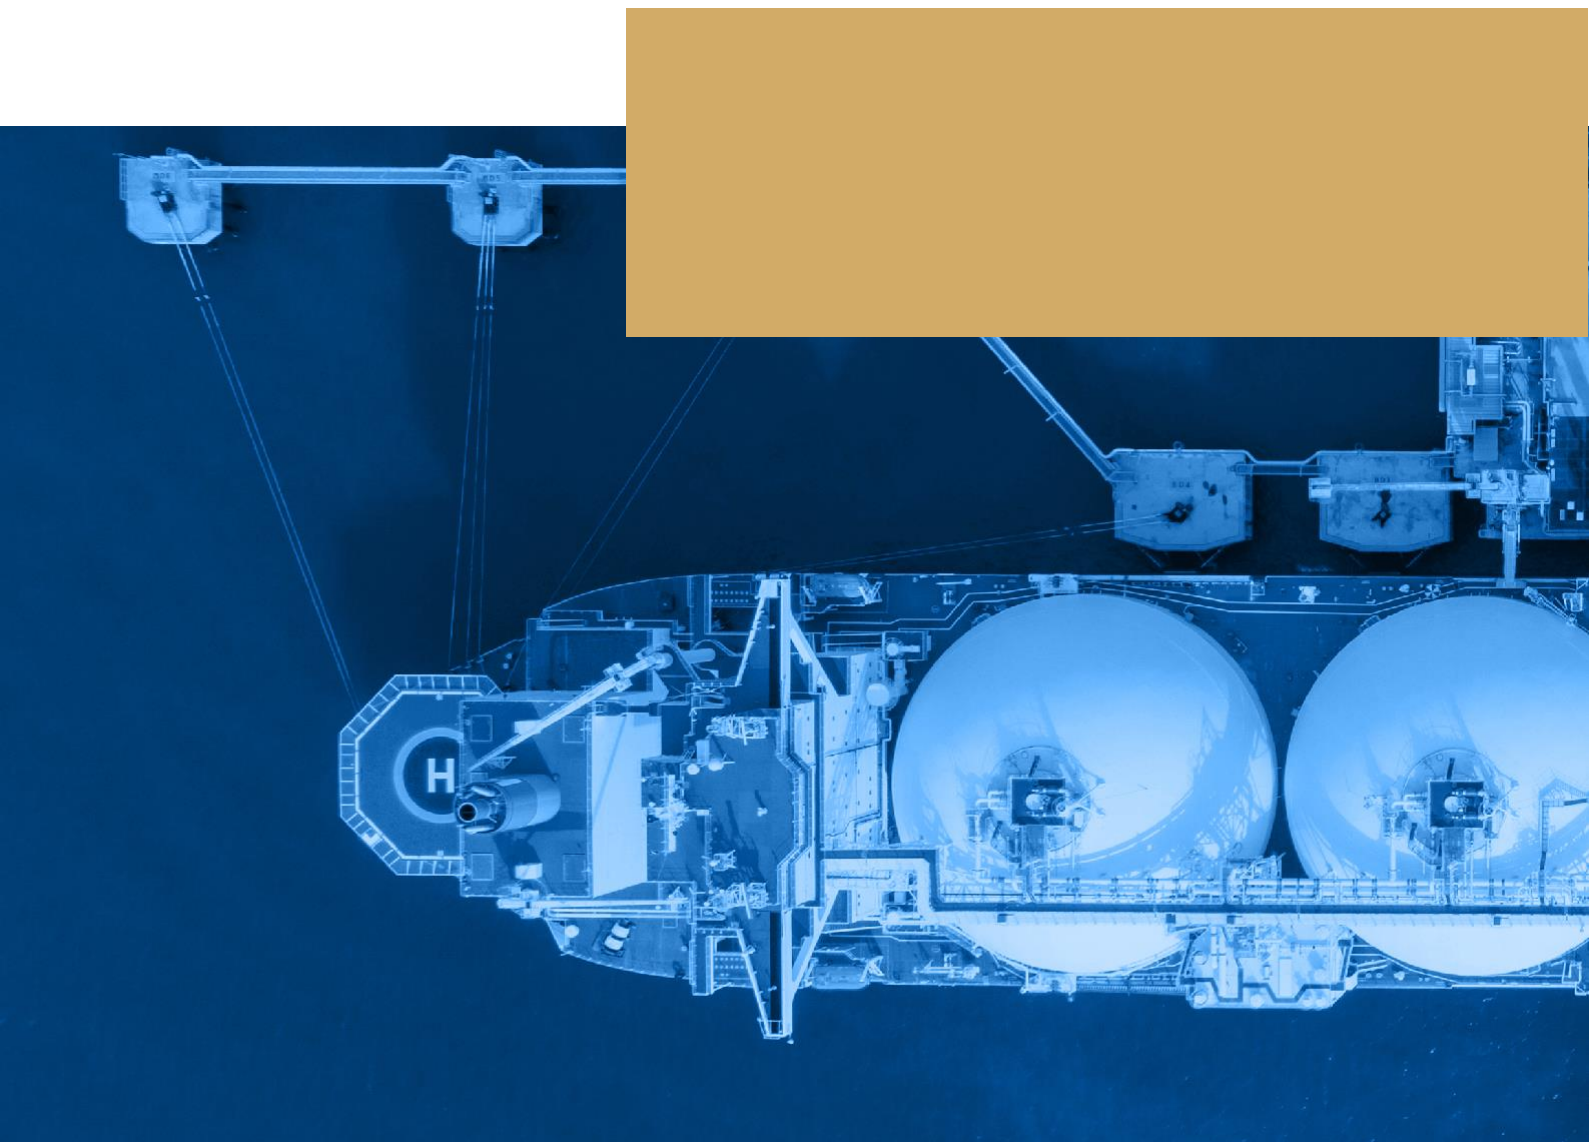

Our Fertilizer products are renowned for their efficacy, characterized by fast-acting properties and diverse formulations available in liquid, pellet, granule, and powder forms. These synthetic fertilizers stand out for their water-solubility, facilitating rapid absorption by plants. This quick assimilation ensures a swift infusion of nutrients, leading to rapid greening and robust plant growth. Among our offerings, the following Fertilizer products are available:

- ▶ Urea (Prilled & Granular)
- ▶ Liquid Ammonia
- ▶ Potassium Sulfate
- ▶ Ammonium Sulfate (Powder & Granular)

ABOUT PETRO PFAMS COMPANY

PETRO PFAMS commenced its journey in the export and import domain in the year 2000, initially collaborating with a small company. Demonstrating remarkable growth and agility, the company rapidly expanded its operations. Within a short span, PETRO PFAMS established multiple manufacturing and trading entities specializing in Petroleum, Petrochemical, and Chemical products. Today, PETRO PFAMS stands proudly as one of the market leaders, playing a pivotal role in the supply of essential products within the Petroleum, Petrochemical, and Polymer industries. The company's swift evolution reflects its commitment to excellence and its adept navigation of the dynamic landscape of international trade, positioning PETRO PFAMS as a prominent and influential player in its respective industries.
